

Personal Profile

Dr. Jayashree L S

Academic Title: Professor

Dept. of Computer Science & Engineering,
PSG College of Technology, Coimbatore, Tamilnadu,
India.

Date of Joining: 01/06/2016

Educational Qualification(s): B.E (Electronics and
Communication) - Government College of
Technology - 1995

M.E (Computer Science & Engineering) -
Government College of Technology - 1997

Ph.D (Computer Science) - Anna university,
Chennai - 05/05/2009

Skills

In Brief

Professor L. S. Jayashree has over 25 years of teaching experience and 20+ years of research leadership in Computer Science and Engineering, with core expertise in Computer Networks, Wireless Networks, Internet of Things (IoT), Edge Computing, and Embedded Machine Learning, and a strong specialization in IoT-enabled smart wearable systems for assistive and connected healthcare applications. She has authored 300+ publications in indexed, peer-reviewed international journals and conferences and has led several externally funded R&D initiatives, including serving as Principal Investigator for major DST-funded projects under the DST-SEED and DST-BDTD schemes and also under BIRAC . She played a pivotal role in establishing the DST supported Centre of Excellence for Assistive Technology and Rehabilitation Engineering Solutions (PSG CARES) in 2019. As a Professor-in-charge and Coordinator of the Center, she is actively involved in developing, clinically validating, and commercializing wearable assistive devices for geriatric and neurological care. With close collaboration with a few leading medical institutions like PSG Institute of Medical Sciece & Research, Neuro Foundation etc., she has successfully taken multiple assistive devices (Gait Watch R, Memory Aide, Dia Sole, Vita Link etc.) through clinical validation and commercialization. Her work also includes industry consultancy engagements with Agna Inc. and Glibster Lifestyle Inc., supporting technology translation and deployment. Professor Jayashree holds three published patents in the assistive healthcare and wearable technology domain. She has successfully guided six Ph.D. scholars to completion and is currently supervising three doctoral researchers, contributing significantly to advanced research training. She serves as Vice President of the Institution's Innovation Cell since 2020 onwards and she is instrumental in drafting the Innovation & Start up policy of the institution. Several major Innovation & Entrepreneurship events have been organized under her leadership including a series of Innovation Ambassador training programmes, Regional Entrepreneurship Conference conducted in collaboration with EDII , Ahmedabad etc. She is a recipient of prestigious national awards, including the INAE Innovative Project Potential Award and the ISTE National Award for Innovative Work in Engineering and Technology. She was shortlisted as a Finalist for the AICTE National Teachers' Award (2023 & 2024), received the Nokia Best Paper Award, and was conferred the Best Outstanding Academic Award of PSG College of Technology (2018–19).

Subject Expertise

Internet of Things (IoT)
Computer Networks
Mobile Computing
Development of Wearable Health care devices
Edge computing & Edge Analytics
AI in Healthcare
Design Thinking

Research Area

IoT Data Analytics
Computer Networks Performance Optimization
Evolutionary Algorithms
Mobile Computing
Biomedical Sensors
Computational Intelligence
Development of Biomedical Devices
Wireless Networks
Internet of Things (IoT)

Membership:

Member - INSTITUTION OF ELECTRICAL AND ELECTRONICS ENGINEERS, USA

Fellow - INSTITUTION OF ENGINEERS(INDIA), KOLKATTA

Life Member - COMPUTER SOCIETY OF INDIA, DELHI

Life Member - COMPUTER SCIENCE TEACHERS ASSOCIATION, USA

Member - Association for Computing Machinery, New York , US

Member - ACM India Expanding Regions Technology Policy Committee , New York
